

IVAN GORANOV

FRONT END DEVELOPER

WORK EXPERIENCE

September 2024 - March 2025 Front-end Developer at Hight.IO:

- I am working as a front-end developer on projects primarily related to the ERP and CRM sector, including Open Banking-finance integration and no code app builder for JD Edwards. I utilized technologies similar to my previous job, including **Next.Js, TypeScript, Zustand, Tailwind** and others.

2022-2024 Front-end Developer at Euroins Insurance Bulgaria:

- For two years, I worked as a front-end developer on projects primarily related to the insurance sector, including liability and comprehensive car insurance, health, and travel insurance. I utilized technologies such as **React.js, JavaScript, MUI, HTML, CSS, Redux.Js**, and others.

2020-2021 Freelancing as web developer:

- I freelanced as a web developer, mainly through referrals. During that time, I developed websites for campaigns and companies based on recommendations.
- Internship for repairing computer hardware and software
